The future hasn't happened yet

Our children are counting on us to create a future that protects the environment **AND** grows the (bio)economy!

Collaborate for success

**More Business to Business
networking** among members of
the industrial bioeconomy

**Sharing war stories = greater
likelihood of successful Scale Up**

Improve our communications

More Government, Media,
Environmental Groups and General
Public **awareness** of the economic
and environmental attributes of the
industrial Bioeconomy =

More investment

More steel in the ground
